WORK EXPERIENCE

AmaliTech Ghana

Nov 2025- Present

UI/UX Designer (Product Designer) - National Service

- Built and documented a scalable Figma design system on atomic-design principles, with reusable variant-based components and standardised colour, type, and spacing.
- Designed a responsive travel booking app, adapting layouts across desktop, tablet, and mobile with Figma constraints and Auto Layout.
- Designed an accessible mobile messaging app to WCAG standards — colour contrast, readable type, and clear interaction patterns validated with Figma tooling.
- Documented the design system with component usage guidelines, visual foundations, and accessibility notes to support consistent developer handoff.
- Collaborated as one of two UI/UX designers to deliver an intuitive, responsive community engagement platform (Vicinity).
- Currently leading the end-to-end product design process for Amalitech' Internal Staffing platform (Entra).
